PROFESSIONAL SUMMARY

Final-year Computer Science student at Independent University, Bangladesh, with strong foundations in full-stack web development (Django, React, JavaScript) and hands-on experience in data collection, validation, and content quality assurance. Passionate about AI/ML-adjacent projects and building reliable, well-structured software. Actively seeking a graduate or junior developer role where I can contribute from day one.

TECHNICAL SKILLS

Languages	Python, JavaScript, Java
Frontend	HTML5, CSS3, React.js, Next.js (basic), Tailwind CSS
Backend	Django, Django ORM, REST APIs
Database	SQL, relational data modelling
Tools & VCS	Git, GitHub, VS Code, Strapi CMS
Soft Skills	Data validation, content annotation, remote collaboration, attention to detail

PROJECTS

Event Management System

2023 – 2024

Full-Stack University Project · Django · Python · SQL

- Designed and built a multi-role web application supporting CRUD operations, role-based access control, and complete RSVP management workflow.
- Engineered efficient database queries using Django ORM; validated all data entry points to maintain accuracy and prevent data corruption.
- Implemented user authentication with permission tiers (admin, organiser, attendee), reducing manual admin overhead by design.
- Outcome: Functional system demoed to faculty; received recognition for clean data architecture and intuitive UX.

Drink Discovery Web App

2024

Frontend Project · JavaScript · HTML · CSS · REST API

- Built a searchable, filterable drink catalogue app consuming a public REST API, with grouped data display and modal detail views.
- Maintained clean, structured data models that ensured seamless user interactions and fast filtered queries.
- Focused on UX clarity — implemented keyboard-accessible search and responsive layout for mobile and desktop.

WORK EXPERIENCE

Freelance Data & Content Specialist

Jan 2023 – Present

Remote · Academic & Independent Projects

- Collected, structured, and organised datasets for web and software development projects, following defined schemas and guidelines.

- Verified and cross-validated project data to ensure accuracy, completeness, and consistency before integration.
- Reviewed and categorised written content to improve overall project quality — a skillset directly applicable to AI training data and content moderation roles.
- Collaborated asynchronously with distributed teammates, consistently meeting project deadlines in a fully remote environment.

EDUCATION

B.Sc in Computer Science & Engineering

2022 – Expected 2026

Independent University, Bangladesh (IUB) · Dhaka

- Relevant coursework: Data Structures & Algorithms, Database Systems, Web Engineering, Software Engineering, OOP.
- Active participant in university hackathons and coding sessions.

Higher Secondary Certificate (HSC)

2020

Shahid Shahed Hajari College, Tangail

Secondary School Certificate (SSC)

2018

Bindubasini Govt. Girls' High School, Tangail

VOLUNTEER & COMMUNITY INVOLVEMENT

- **Volunteer Coordinator** – Dhaka Regional Physics Olympiad 2024: Assisted with event logistics, registration management, and participant coordination.
- **Volunteer** – Dhaka Regional Physics Olympiad 2023: Supported event operations and ensured smooth participant experience.

ADDITIONAL INFORMATION

Availability	Open to remote and hybrid roles; flexible schedule
Interests	AI/ML data pipelines, content quality, full-stack development
Learning	Currently exploring Next.js, REST API design, and cloud basics (AWS)
References	Available on request
